PLAN DEVELOPMENT

BACKGROUND

The Utah Commission on Service and Volunteerism, as a state commission, is governed by the Serve America Act, which mandates all commissions develop and annually update a statewide plan for service covering a three-year period that is consistent with the broad goals of the Corporation for National and Community Service.

A. The plan must be developed through an open and public process that allows for maximum participation and input from a broad cross-section of individuals and organizations with a demonstrated record of providing educational, public safety, human, or environmental services, residents of the State, State Educational Agencies, traditional service organizations, local government, labor unions, and other interested members of the public.

B. The plan must ensure outreach to diverse, broad-based community organizations that serve underrepresented populations by creating state networks and registries or by utilizing existing ones.

C. The plan must set forth the State's goals, priorities, and strategies for promoting national and community service and strengthening its service infrastructure, including how Corporation-funded programs fit into the plan.

PROCESS

This Strategic Plan builds on the work of the 2017-2019 Strategic Plan, drafted by the Utah Commission on Service & Volunteerism and staff in 2016. This new plan was developed through an open and public process that provided for maximum participation and input from key stakeholders across the state. An electronic survey was distributed to the public and solicited over 1,200 responses, with every county in Utah represented. In addition, a listening tour was conducted across the state in 8 locations including Logan, Vernal, Ogden, Salt Lake, Provo, Moab, Cedar City and St. George. Participants in the listening tour sessions represented government agencies, private sector businesses, educational institutions, non-profits, national service programs and the general public.

The strategic direction and goals included in this plan are a response to the understanding of what these stakeholders identified as challenges or issues across the state. The process of developing this plan has provided an opportunity for assessing and deepening UServeUtah approaches to its work.

IMPLEMENTATION

This 3-year plan is a roadmap to building systems that harness and focus our unique and invaluable resource – the cultural ethic of giving back that exists among Utah citizens. The plan lays out a comprehensive framework based on guiding objectives and impacts. The plan will be executed through the oversight of the Utah Commission on Service & Volunteerism. Bimonthly Commission meetings are facilitated to evaluate progress toward the goals and objectives of the Strategic Plan with updates implemented as needed. The UServeUtah staff will be responsible for the progress in meeting the plan objectives.

With a fresh perspective on our mission, understanding what we do well, and the environment in which we operate, all UServeUtah strategies and activities are consolidated under the three Commission objectives listed below.

- **Build & Cultivate Capacity for Effective National Service and Community Engagement** – A primary aim of UServeUtah is to help organizations effectively use national service and community engagement as strategies to fulfill their mission and to address critical community needs.
- **Promote & Inspire National Service and Community Engagement** – UServeUtah is committed to inspiring action and creating ways for all Utahns to identify and participate in quality national service and community engagement opportunities.
- **Recognize Outstanding Impacts through Service** – UServeUtah is dedicated to recognizing and acknowledging individuals and organizations for their outstanding national service and community engagement efforts and impact.

CONCLUSION

This strategic plan conveys for the Commission and for our constituents an understanding of who we are, what we do, and the values by which we define ourselves. It outlines our vision and the key objectives we believe we must meet in order to achieve that vision.

The plan does not reflect everything that UServeUtah hopes to accomplish over the next three years; nor does it represent a binding set of directives, since the planning process must be fluid and flexible. It will, however, serve as the framework by which we will make decisions, focus our resources, and work to expand our reach in the national service and community engagement sectors.
