

**Foster Grandparent Program
End-of-Year Tracking Form - For SCHOOL Use**

Volunteer: _____ Volunteer Station Site: _____

The impact of a Foster Grandparent's service must be evaluated on the students that the Foster Grandparent worked with. The minimum amount of time a Foster Grandparent should have worked with the student is for a minimum of 12 weeks of the year. Please use a standardized test to evaluate student performance.

UServeUtah must report the number of students with improved academic performance. It is not necessary for UServeUtah to know which specific students improved. We solely need to know the number of students that were served by a Foster Grandparent and the outcomes for those students. This form will help you prepare the totals that will be reported in a Google Survey on the UServeUtah Foster Grandparent Station Website. We appreciate your help with sharing the aggregate data with us.

Student Identifier	Measurement Tool Used	Beginning Assessment Level	Year End Assessment Level	Outcome	
				Maintained/Did not improve	Improved academic performance
Total Number of Students:			Number of students in each category:		

For school use only, do not return to UServeUtah Foster Grandparent Program.
